

Aspatia Medical Group Patient Survey 2013 - 14

GP Comments

A fantastic GP. Will be a great miss. Encourage her to stay!

I am attending a routine nurse appointment.

Very good.

Always excellent service at all times.

He is a very nice person. He always has time to listen to you and gives excellent advice.

No complaints against Dr Saxon at all. Kind, listened, understood. Can't ask for more.

Polite, genial, professional, considerate.

Top bloke!

Nearly always go to nurse practitioner.]

It is a real shame he is leaving.

All the GPs I have seen over the years have been good and have no complaints but I only ever come when I really have something that's obvious and don't come with a common cold etc (hope this helps).

All helpful and caring. From my previous practice I found it difficult to see a doctor and found a lot of referrals for my care went missed. I feel that within this practice my health has improved in under a year so much than in the last 6 years of my last GP. All thanks to the wonderful doctors. Thank you.

Very friendly.

All positive comments about the 2 GPs I have used over the years, Dr Taylor and Dr Gardner. Fantastic care for my elderly mother when she came over from Sweden. All in all great. Very sorry to see Dr Taylor is retiring.

Always very helpful and understanding.
